Questions and Answers:

- Q1)** For the cost proposal, will the Niagara Region accept the following pricing breakdown:
- i) A **fixed** price for the DES
 - ii) A **variable** price or a **range** of pricing for the 80% engineering and CIA
In the experience, bidder have found that the DES often reveals things that could increase *or* decrease the amount of engineering work required, and the price should reflect this. Please clarify if this would be acceptable.
- A1)** No, proponents must provide **total** cost for the specified scope of work and technical requirements.
- Q2)** In the electrical bills provided, we were given February 2017 instead of February 2016. Could Region please upload the complete data set for 2016.
- A2)** The Niagara Region Financial System -where records are maintained- was changed at the beginning of 2016. Region doesn't have February 2016 information in our system therefore; we provided February 2017 instead. If this is

crucial for bidders work, Region can issue a letter to the appropriate LDC to release a copy of the bill **just for the successful proponent.**

Q3) In the natural gas bills, we are missing January 2016 and February for 2016. Please upload the appropriate document set.
